DOMAINS

Electrical Engineering & AI Enthusiast

Final-year Electrical Engineering student at Universitas Kristen Krida Wacana (UKRIDA) with strong interests in AI, automation, robotics, IoT systems, and data science.

Experienced in developing machine learning projects, dashboard monitoring systems, embedded systems, and hardware-software integration projects.

Comfortable working with Python, SQL, Streamlit, machine learning models, Raspberry Pi, ESP32, MQTT communication, and data visualization tools.

Strong analytical thinking, problem-solving, teamwork, and automation mindset.

- AI & ML
- Robotics
- Data Science
- IoT
- Analytics
- Automation

SKILLS

Technical Toolkit

Technologies and tools I use to build intelligent systems.

Data Science & AI

- Python
- SQL
- Pandas
- NumPy
- Streamlit
- Machine Learning
- XGBoost
- Random Forest
- Data Analysis
- Dashboard Development
- Data Visualization

Tools & Platforms

[Git](#)[VS Code](#)[Jupyter Notebook](#)[Excel](#)[Google Sheets](#)[Firebase](#)

PROJECTS

Featured Work

Explore my key projects across Data Science and Robotics.

EXPERIENCE

My Journey

Key roles and responsibilities that shaped my professional growth.

Research & Development Intern

Industry R&D Division

2024

Contributed to research and development initiatives involving data analysis, system prototyping, and technical documentation. Assisted in developing automation solutions and integrating IoT systems for monitoring and control applications.

Coding Tutor

Private & Group Tutoring

2023 – Present

Provided coding tutoring in Python, Arduino, and basic data science concepts. Helped students understand programming logic, complete academic projects, and develop practical coding skills through hands-on exercises.

Head of Public Relations

Electrical Engineering Student Association

2022 – 2023

Led the public relations division of the Electrical Engineering student association. Managed event communications, coordinated with external partners and sponsors, and organized outreach programs to strengthen the association's presence.

CERTIFICATIONS

Credentials

Professional certifications and learning achievements.

SQL & Data Visualization

Dicoding Indonesia

Python & Data Science

DQLab

Intro to Data Analytics

RevoU

Data Science Bootcamp

Digica Academy

Coding Camp — Data Science Path

DBS Foundation

CONTACT

Get In Touch

Have a project or opportunity in mind? Let's connect.

Let's Work Together

I'm currently open to internship opportunities, freelance projects, and collaborations in AI, Data Science, Robotics, and IoT. Feel free to reach out!
