Jakarta Metropolitan Area | krenzlouie39@gmail.com

085780694246 | [linkedin.com/in/louieejason/](https://www.linkedin.com/in/louieejason/) | louie-jason.github.io/portfolio/

Data Science enthusiast with hands-on experience in building machine learning models and end-to-end analytics projects. Skilled in Python, SQL, and data analysis, with the ability to transform raw data into actionable insights. Experienced in customer segmentation, predictive modeling, and dashboard development. Currently pursuing an Electrical Engineering degree and actively seeking a Data Science internship.

EDUCATION

Krida Wacana Christian University, Jakarta

Sep 2022 – Present

Undergraduate, Electrical Engineering

- GPA 3.69 of 4.00
- 2nd Highest GPA – Semesters I–III (2022-2023)

SKILLS

Programming Languages:

Python, SQL

Data Analysis & Visualization:

Pandas, NumPy, Matplotlib, Seaborn, Microsoft Excel (Pivot Table, Lookup, Data Cleaning)

Machine Learning:

Supervised Learning, Classification, Regression, Model Evaluation

Tools & Others:

Git, Jupyter Notebook, VS Code

PROJECTS

Bank Customer Segmentation & Classification

Github: <https://github.com/louie-jason/bank-customer-segmentation-and-classification>

- Developed an end-to-end machine learning pipeline combining K-Means clustering and classification models
- Segmented customers into behavioral groups (high-value, low engagement, and risk segment)
- Built classification models (Random Forest, Decision Tree) to predict customer segments
- Applied feature engineering, PCA, and hyperparameter tuning (GridSearchCV)
- **Impact:** Enables targeted marketing, risk profiling, and customer retention strategies

E-Commerce Data Analysis & Interactive Dashboard

Github: <https://github.com/louie-jason/ecommerce-dashboard-analysis>

- Built an end-to-end data analysis pipeline with an interactive Streamlit dashboard
- Applied RFM (Recency, Frequency, Monetary) analysis for customer segmentation
- Performed EDA and revenue trend analysis on transactional data
- Identified that most customers are one-time buyers, indicating low retention
- **Impact:** Provided insights for improving customer retention and optimizing product strategy

Credit Default Prediction

Github: <https://github.com/louie-jason/credit-default-prediction>

- Built a classification model to predict customer credit default risk
- Handled class imbalance using SMOTE and evaluated using ROC-AUC and F1-score
- Improved recall of default class for better risk detection
- **Impact:** Helps financial institutions identify high-risk customers and reduce potential credit losses

WORKING EXPERIENCE

Galva Technologies, Jakarta

Jul 2025 – Sep 2025

Research and Development Intern

- Built and tested 3 hardware/software prototypes to support R&D innovation.
- Performed hardware troubleshooting and debugging, improving system reliability.
- Optimized prototype performance through iterative testing, reducing development time by 15%.

Universitas Kristen Krida Wacana, Jakarta

Jul 2025 – Sep 2025

Lecturer Assistant - Robotics

- Assisted lecturer in teaching Robotics course and conducting lab sessions.
- Guided students in building and programming robots using C++ and Arduino.

ACHIEVEMENTS

Funding Awardee – Program Kreativitas Mahasiswa Karsa Cipta (PKM-KC) 2025, Jakarta

Aug 2025

Secured national funding for SITCARE (IoT Smart Chair) as 1 of 1,590 selected teams from 33,000+ proposals.

1st Place – Creative Writing Competition, Jakarta

Jul 2025

Awarded 1st place out of 30 teams in UKRIDA's Lomba Menulis Kreativitas Mahasiswa.

Generasi Teknologi Scholarship Awardee, Jakarta

Sep 2022

Recipient of a full 8-semester scholarship for Engineering students with outstanding academic performance.

2nd Highest GPA – Semesters I–III (2022-2023), Jakarta

Sep 2022

Consistently ranked as the 2nd highest GPA holder across the first three semesters.

LEADERSHIP ACTIVITIES

Program Kreativitas Mahasiswa – Karsa Cipta (PKM-KC), Jakarta

Aug 2025

Team Leader

- Led 4-member team to develop IoT Smart Chair with posture monitoring & cloud integration.
- Coordinated research, hardware/software development, and reporting for PIMNAS selection.

UKRIDA Mengajar at Sinar Kasih School, Bogor

Mar - Jun 2025

Team Leader - Coding Tutor

- Led a small team in teaching coding sessions as part of the UKRIDA Mengajar (Kampus Mengajar) program.
- Organized lesson plans, delegated teaching responsibilities, and ensured learning objectives were achieved.

CERTIFICATIONS

- Coding Camp 2026 – DBS Foundation (Data Science Path, Ongoing)
- Data Science Bootcamp – Digica Academy
- Intro to Data Analytics – RevoU
- SQL & Data Visualization – Dicoding
- Python & Data Science – DQLab

ORGANIZATIONS

Duta UKRIDA, Jakarta

Sep 2023 - Present

Ambassador

- Served under the Marketing, Public Relations, and Admissions unit to promote the university.
- Represented UKRIDA through school visits, presentations, and events to attract prospective students.

Himpunan Mahasiswa Elektro, Jakarta

Jul 2023 - Jul 2024

Head of Public Relations

- Directed the Public Relations Division of the Electrical Engineering Student Association.
- Oversaw communication strategies, built partnerships, and managed media relations.
